Maps of key district-level outcomes

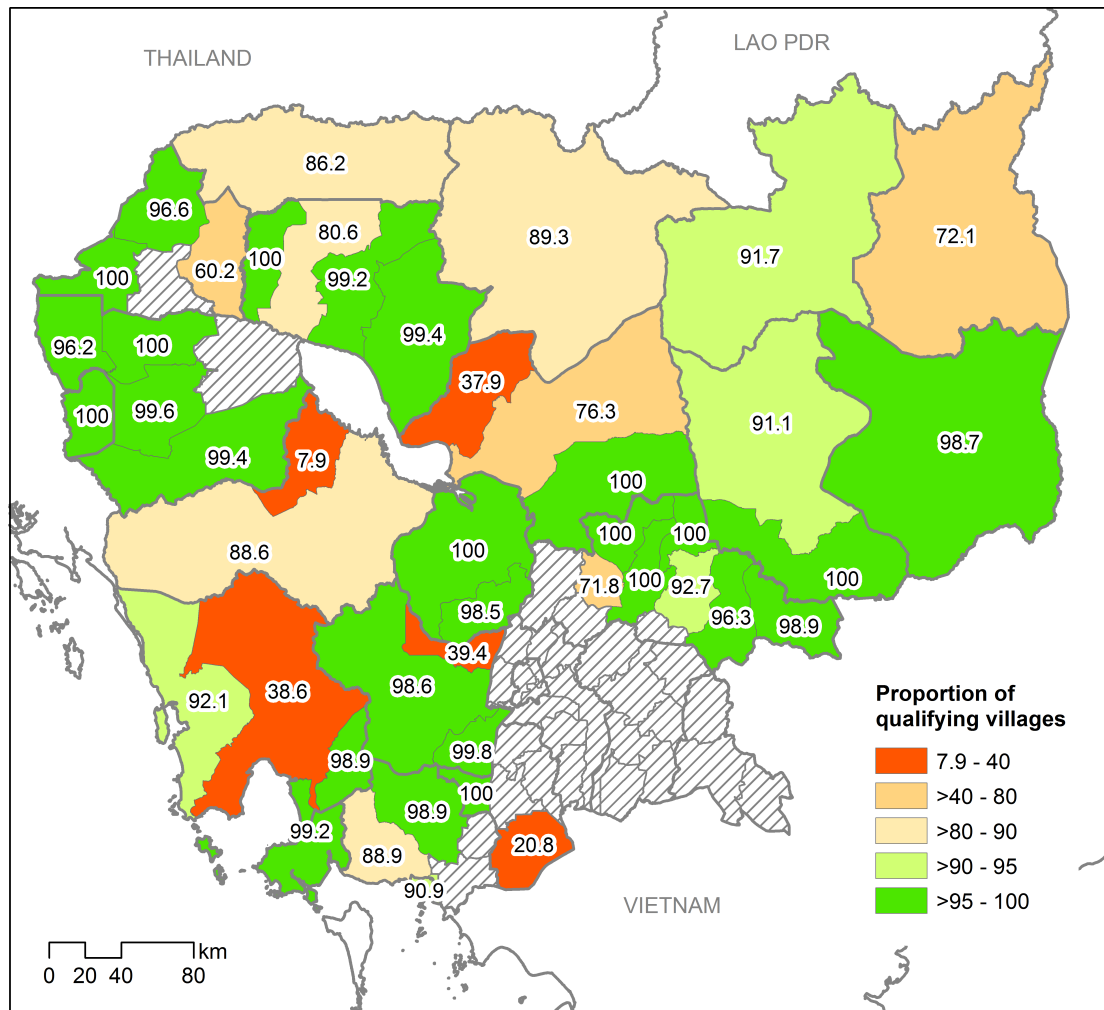

Figure 1. Proportion of villages contributing to the 2011 village-level stratification, mapped by operational district. (Note: districts with grey hatching are not included in the Cambodia Malaria Information System).

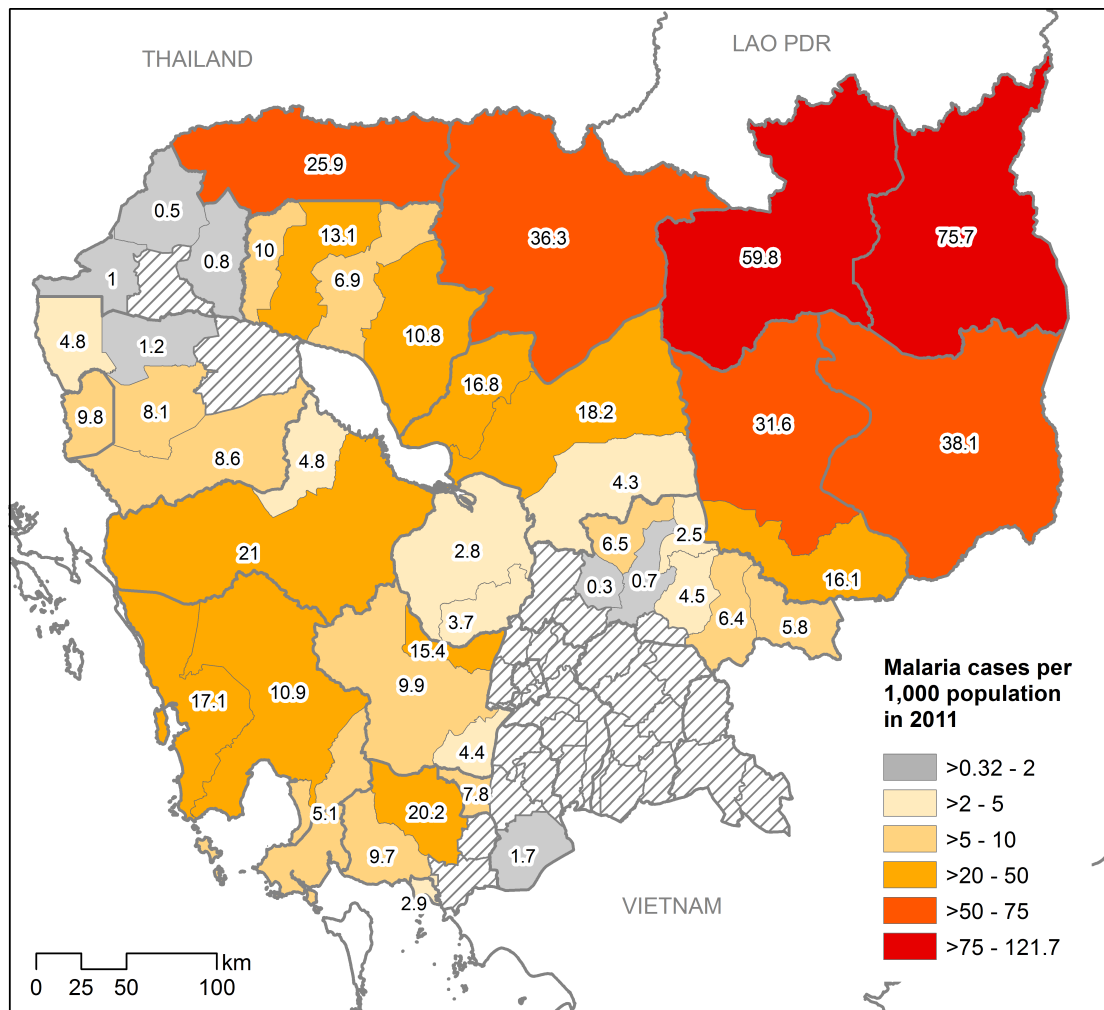

Figure 2. Annual malaria incidence (cases per 1,000 population) for 2011 for all parasite species, mapped by operational district.

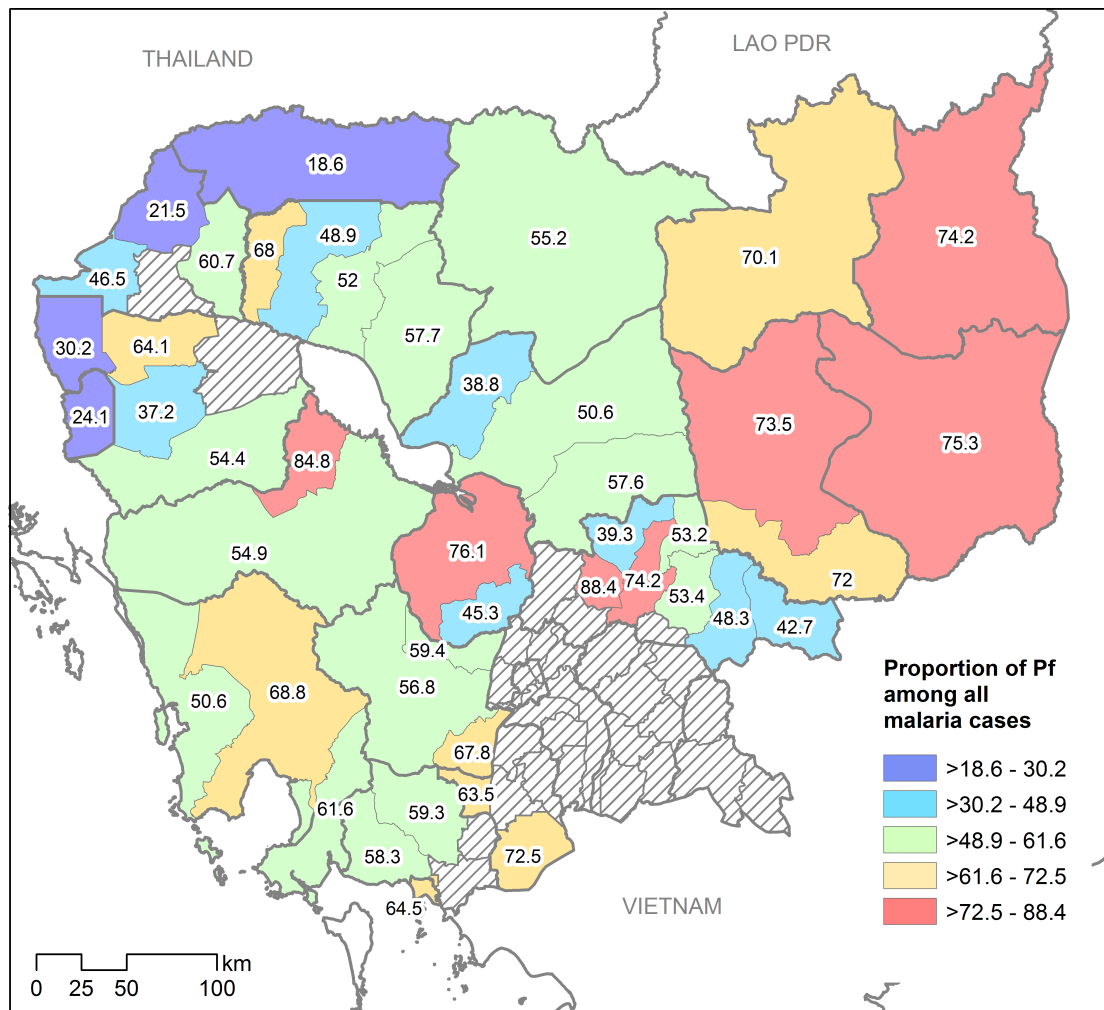

Figure 3. Proportion of *P. falciparum* among all malaria cases reported in 2011, mapped by operational district.
